Insurance Australia Group Limited is a publicly listed company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is 388 George Street, Sydney, NSW 2000.

**INSURANCE AUSTRALIA GROUP LIMITED AND CONTROLLED ENTITIES**

**DIRECTORS' REPORT**

The Directors present their report together with the consolidated financial report of Insurance Australia Group Limited ("IAG / the Company") and its controlled entities ("the IAG Group") for the half year ended 31 December 2002 and the auditors' review report thereon.

**Directors**

The Directors of the Company during or since the end of the half year are:

Mr JA Strong (Director since 2 August 2001), Mr JF Astbury (Director since 25 July 2000), Mrs MC Callaghan (Director since 19 June 2000), Mr GA Cousins (Director since 25 July 2000), Mrs M Easson (Director since 19 June 2000), Ms DG Fisher (Director since 19 June 2000), Mr ND Hamilton (Director since 19 June 2000), Ms AJ Keating (Director since 19 June 2000), Mr RA Ross (Director since 25 July 2000) and Mr M Hawker (Director since 1 December 2001).

**Result and review of operations**

The IAG Group net profit for the half year was \$97 million (2001 - \$58 million). After adjusting for outside equity interests in the IAG Group result, the net profit attributable to shareholders of the Company was \$62 million (2001 - \$49 million).

The underlying business has performed strongly, producing an underwriting profit of \$71 million compared to \$37 million in 2001.

Highlights of the IAG Group's performance over the last six months are as follows:

- Premium growth: Gross written premium was \$1,886 million, representing an increase of 13.3% on the same period last year (\$1,665 million). Organic growth has been the major driver of this growth.
- Expenses: the expense ratio (underwriting expenses to net earned premium) of 19.2% compares favourably to 20.1% for the same period last year.
- Short-tail underwriting continues to perform soundly with a combined ratio (claims and underwriting expenses to net earned premium) of 92.3% (2001 - 98.0%).
- The long-tail portfolio is also continuing strong performance with the combined ratio of 105.2%, which is at the lower end of our long term operating target of 105% - 110%.
- The international portfolio also performed soundly with a combined ratio of 98.1% compared to 96.3% in 2001.
- The IAG Group's financial services products delivered a profit before tax of \$2 million (2001 - \$8 million).
- There were no major loss events in the current period.

Realised and unrealised investment income included in the consolidated net profit for the half year was \$113 million (2001 - \$92 million). The IAG Group outperformed its fixed interest and international equity benchmarks and was marginally behind the Australian equity benchmark return. The negative returns on local and overseas equity markets resulted in lower than anticipated investment returns in the period. The policy of matching insurance claims liabilities with a high proportion of fixed interest investments has enabled the positive investment returns from this class to offset or immunise the increase in insurance liabilities associated with movements in interest rates.

Further information on the IAG Group's result and review of operations can be found in the 31 December 2002 Investor Report on the Company's website, [www.iag.com.au](http://www.iag.com.au).

**DIRECTORS' REPORT**

**Events subsequent to reporting date**

On 18 October 2002, IAG announced that it had entered into an agreement to purchase the general insurance businesses in Australia and New Zealand from Aviva plc (formerly CGNU plc) for \$1,855 million. The acquisition date was 2 January 2003. Further details of the impact on IAG from this acquisition are disclosed in note 14.

On 18 and 19 January 2003, the IAG Group was impacted by the bushfires in the Australian Capital Territory and New South Wales. We estimate the IAG Group's losses from these bushfires would not exceed \$42 million after tax.

**Dividends**

Details of dividend declared are set out in note 7.

**Rounding of amounts**

Unless otherwise stated, amounts in the financial report and Directors' report have been rounded to the nearest million dollars. The Company is of a kind referred to in the class order 98/100 dated 10 July 1998 issued by the Australian Securities & Investments Commission. All rounding has been conducted in accordance with that class order.

Signed at Sydney this 27th day of February 2003 in accordance with a resolution of the Directors.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2002**

**Note 1. Statement of significant accounting policies**

**Basis of preparation of half-year financial report**

The half year consolidated financial report is a general purpose financial report which has been prepared in accordance with the requirements of the Corporations Act 2001, Accounting Standard AASB 1029: Interim Financial Reporting, the recognition and measurement requirements of applicable AASB standards, other authoritative pronouncements of the Australian Accounting Standards Board and Urgent Issues Group consensus views. This half year financial report is to be read in conjunction with the 30 June 2002 Annual Financial Report and any public announcements by Insurance Australia Group Limited and its controlled entities during the half year in accordance with continuous disclosure obligations arising under the Corporations Act 2001 and Australian Stock Exchange Listing Rules.

Except for certain assets which, as noted in the financial statement are at valuation, the financial statements have been prepared in accordance with historical cost convention.

Accounting policies have been consistently applied by each entity in the IAG Group and, except where there is a change in accounting policy as disclosed in note 2, are consistent with those applied in the 30 June 2002 Annual Financial Report.

The half year report does not include full note disclosures of the type normally included in an annual financial report.

**Note 2. Changes in accounting policies**

**Employee entitlements**

The IAG Group has applied the revised AASB 1028: Employee Benefits (issued in June 2001) for the first time from 1 July 2002.

*Wages, salaries, annual leave and sick leave*

Liabilities for wages and salaries, annual leave and sick leave are recognised at the nominal amounts unpaid at the reporting date using remuneration rates that are expected to be paid when these liabilities are settled, including on-costs. This is a change from prior periods when remuneration rates existing at balance date were used. The impact of this change resulted in an increase of expense of approximately \$1 million to the statement of financial performance of the IAG Group.

Accounting policies for long service leave, superannuation and the Staff Allocation Share Plan have not changed since 30 June 2002.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2002**

**Note 12. Contingent liabilities and contingent assets**

Other than the matter referred to below, there have been no other material changes in contingent liabilities or contingent assets since 30 June 2002.

As disclosed in prior years, in the normal course of its operations, NRMA Insurance Limited ("NRMAI") entered a quota share reinsurance contract with a US insurer ("the Ceding Insurer") for one year from 1 July 1997.

NRMAI accepted 50% of a 20% Whole Account Quota Share Reinsurance Treaty of the property and casualty insurance and reinsurance business written by the Ceding Insurer ("the Treaty").

Court proceedings were commenced by NRMAI against the Ceding Insurer and other parties in 1999. The dispute with the Ceding Insurer has been referred to arbitration.

The other insurers to the Treaty have separate arbitration proceedings against the Ceding Insurer.

The arbitration involving NRMAI is being heard in two parts. The arbitration panel in November 2002 ruled in favour of NRMAI in relation to the preliminary issue, that the Treaty is not retroactive and therefore does not cover loss occurrences prior to 1 July 1997. As a result of this ruling the Ceding Insurer is required to provide a new accounting for the Treaty to NRMAI. The second part of the case is scheduled to be heard in October 2003 and will examine whether the Treaty should in any event be rescinded.

NRMAI holds a letter of credit for US\$25 million as security if it is successful in its claim. Whilst NRMAI believes its case is strong, if NRMAI were wholly unsuccessful in its claim, it could lose the amount of US\$25 million recognised as an asset in the financial report and record a further loss of US\$13 million. In stating these amounts NRMAI has not taken into account the recent ruling of the arbitration panel in its favour. NRMAI is currently unable to quantify the effect this ruling may have on its potential losses if it were to be wholly unsuccessful in the second part of the case.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2002**

**Note 13. Segmental reporting**

Primary reporting - business segments

The IAG Group operates in the general insurance and retirement services industries. In the general insurance industry, its revenue is derived from the underwriting of short-tail, long-tail and international insurance businesses and these form separate reportable segments along with retirement services. Other activities, including corporate services, investment management and investment of the IAG Group's capital funds form a separate segment.

The Company's Directors are responsible for the financial report.

We have performed an independent review of the financial report in order to state whether, on the basis of procedures described, anything has come to our attention that would indicate that the financial report is not presented fairly in accordance with Accounting Standard AASB 1029 "Interim Financial Reporting" and other mandatory professional reporting requirements and statutory requirements in Australia so as to present a view which is consistent with our understanding of the consolidated entity's financial position, and performance as represented by the results of its operations and its cash flows, and in order for the Company to lodge the financial report with the Australian Securities & Investments Commission.

Our review has been conducted in accordance with Australian Auditing Standards applicable to review engagements. The review is limited primarily to inquiries of company personnel and analytical procedures applied to the financial data. Our review has not involved a study and evaluation of internal accounting controls, tests of accounting records or tests of responses to inquiries by obtaining corroborative evidence from inspection, observation or confirmation. The procedures do not provide all the evidence that would be required in an audit, thus the level of assurance is less than given in an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.
